

HCS CONNECT®

Home Health and Hospice Software

HCS Connect® was developed in collaboration with billing and data entry staff, accountants, clinicians, and IT staff. This all inclusive design process resulted in a complete and user-friendly program that is a must have for success in

today's home care market. HCS Connect® is more than just a billing software. While able to submit electronic claims, post electronic ERAs, and track accounts receivable, it also provides the tools necessary for effective management of your home care agency and comes standard with one of the most comprehensive reporting packages available. Visit us on the web for a sample of the reports or call us for a free software demonstration.

WHY HCS CONNECT®

- Affordable
- User Friendly
- Unparalleled Customer Support
- Seamless Transition & Implementation
- Hosted Application
- No Expensive Equipment to Buy
- Extensive Reporting
- No Additional Modules to Purchase
- Included with Annual Billing Agreement
